## Lakeshore Road Resurfacing and Multi-use Sidewalk

### Project Update – May 2025

[Burlington.ca/LakeshoreRoad](https://burlington.ca/LakeshoreRoad)

King Paving and Construction Ltd. has been awarded the Lakeshore Road Resurfacing contract.

#### Project Location

## **Project Scope**

- Asphalt resurfacing
- Spot curb replacement
- Spot sidewalk replacement on the north side
- Full multi-use pathway replacement on the south side.
- Traffic signal and intersection at Kenwood Dr., Hampton Heath, and Burloak Dr. intersections.
- Installation of Pedestrian Crossings (PXOs).
- Transit stop upgrades - 13 locations
- Storm sewer spots repairs and upgrade

## **Project Schedule – June to October 2025**

### **Contacts**

<b>Inquiry</b>	<b>Contact</b>
Day-to-day construction	<b>Rob McQueen</b> , Construction Inspector City of Burlington, 289-983-6304 <a href="mailto:Robert.McQueen@burlington.ca">Robert.McQueen@burlington.ca</a>
All other construction inquiries	<b>Hasan Rabby</b> , Contract Administrator City of Burlington, 905-335-7600, ext. 7507 <a href="mailto:Hasan.Rabby@burlington.ca">Hasan.Rabby@burlington.ca</a>

### **Utilities**

Utilities, such as Union Gas, Hydro and Bell Canada, have already started to locate their existing infrastructure to prepare for this construction. Residents will see various coloured paint marks and flags on their lawn and roadway. These are noting the location of various underground utilities, i.e. gas (yellow), hydro (red) water (blue), etc. ***Please do not remove these marker stakes or paint markings. Staff will return to remove them once the project is complete.***

### **Access to Your Home**

During normal construction hours (Monday to Friday, 7 a.m. to 6:30 p.m.) vehicle access to and from your properties may be interrupted. Driveways will be temporarily closed when work is being carried out in the immediate area. Either the Inspector or the Contractor will notify you of access interruptions before the closure.

Through staging of the work, every effort is required to be made to ensure access is maintained to multi-unit parking lots and facilities. Access interruptions are not expected.

### **Driveway Impacts**

During replacement of existing curb and sidewalk, and the installation of services and laterals, portions of existing driveways will require replacement. These driveways will be replaced full width to the limit of disturbance.

### **Road Closures/Lane Restrictions**

Lane restrictions will be in place during construction. Additional information will be provided during construction, as necessary.

Full road closures are not planned on this project.

### **Parking**

For the duration of construction, enforcement of the “5-hour” maximum on-street parking by-law will be relaxed when your driveway is inaccessible or closed. Residents are asked to register their vehicle online at [www.burlington.ca/parking](http://www.burlington.ca/parking) or call 905-335-7816 Monday to Friday 8:30 to 4:30 p.m.

Vehicles are not permitted to park where signs are posted. (e.g. No Parking, No Stopping, and Fire Route etc.) In addition, vehicles are not to block fire hydrants, driveway access or park their vehicles facing the wrong direction.

## **How does a parking exemption work?**

- It allows a vehicle to park on the street beyond the five-hour limit or overnight between 1 a.m. and 6 a.m., up to 15 days per calendar year, per licence plate.
- The only two parking offences waived AFTER a vehicle is registered for a parking exemption are:
  1. Park exceeding five-hour limit
  2. Park between 1 a.m. and 6 a.m.
- All other parking offences apply as they are not part of the parking exemption program.

During City construction projects, the extra days will not be included in the 15-day-per-year limit when your driveway is not accessible. However, it is important to register your vehicle for this program so that you will not receive a parking ticket.

## **Garbage Pick up**

Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage and recycling to a location that can be accessed by the garbage truck and return your garbage/recycling containers if required. To help the contractor, we ask that you mark your house number on your bins.

## **Lawn Irrigation System**

If you have a lawn irrigation system where curb and sidewalk are to be replaced or installed, we request that you flag all irrigation heads, to help avoid damage. The City is not responsible for damaged heads within the road allowance. This does not have to be done until work in your area is scheduled.

## **Vibration**

You may at times experience minor vibration from construction equipment. We recommend that you remove small, light objects from shelving around the house.

## **Trees**

Tree protection barriers will be erected around all trees in the right-of-way and in front of adjacent private trees within the construction limits, with an opening to allow homeowner access to maintain the area within.

There may be boulevard trees removed due to conflict with the installation of the new water and wastewater mains and services, as well as other unforeseen circumstances. If a conflict arises, alternate installation locations and methods will be reviewed in depth, but tree removals may be unavoidable. Homeowners adjacent to these removals will be informed prior to removal.

## **Canada Post**

Due to access concerns regarding door-to-door mail delivery, temporary single-point mail pick-up location(s) will be coordinated by Canada Post.

## **Project Updates and Current Information**

If you would like to receive notification via email when future Project Updates are available, please subscribe to the project webpage [Burlington.ca/LakeshoreRoad](http://Burlington.ca/LakeshoreRoad)

**We would like to thank you for your co-operation and understanding during this construction period.**

Kind Regards,

*Ryan Stoneman*
