

Prospect Street Area Phase Two Minor Reconstruction, Watermain and Waste Watermain Installation

Project Update – June 2026

Burlington.ca/ProspectRenewal

Please be advised that nightwork is scheduled to occur from 7:00 pm to 8:00 am, starting on (Monday night) June 15th, 2026 through Tuesday June 16th, 2026 in the vicinity of Prospect Street and Brant Street as well as Grahams Lane and Legion Road. This night work is required to facilitate the installation of a watermain valve chamber in the Brant Street and Prospect Street Intersection, reducing the impacts on local businesses and minimizing disruption to traffic flow within the area. We will make every effort to complete the construction work as quickly as possible to minimize the impact of this work.

Below is a list of activities you may notice:

- Excavators will be in use.
- Temporary restoration of the excavated area including backfilling and compaction
- Lighting – task lights will be used with all lights positioned to shine internally on the site.

Project Updates and Current Information

If you would like to receive notification via email when future Project Updates are available, please subscribe to the project webpage Burlington.ca/ProspectRenewal

We would like to thank you for your co-operation and understanding during this construction period.

Kind Regards,
Rob Stuart
Project Manager
City of Burlington

cc. Councillor Lisa Kearns, Ward 2
