Rexway Drive Area Minor Reconstruction – Phase 2 Project Update – August 2022

As part of the Stage-1 area restoration works of the Rexway Area Ph.2 project, topsoil and sod have been placed in the boulevard and lawn areas. The Contractor will water for the next couple of weeks, but the City asks that homeowners make every effort to continue watering and maintain the newly placed sod. Please refrain from cutting the newly placed sod for 2-3 weeks in order to prevent root damage due to excessive heat and sun exposure.
