Rexway Drive Area Minor Reconstruction – Phase 2

Project Update – March 2022

[Burlington.ca/RexwayAreaPhase2](https://www.burlington.ca/RexwayAreaPhase2)

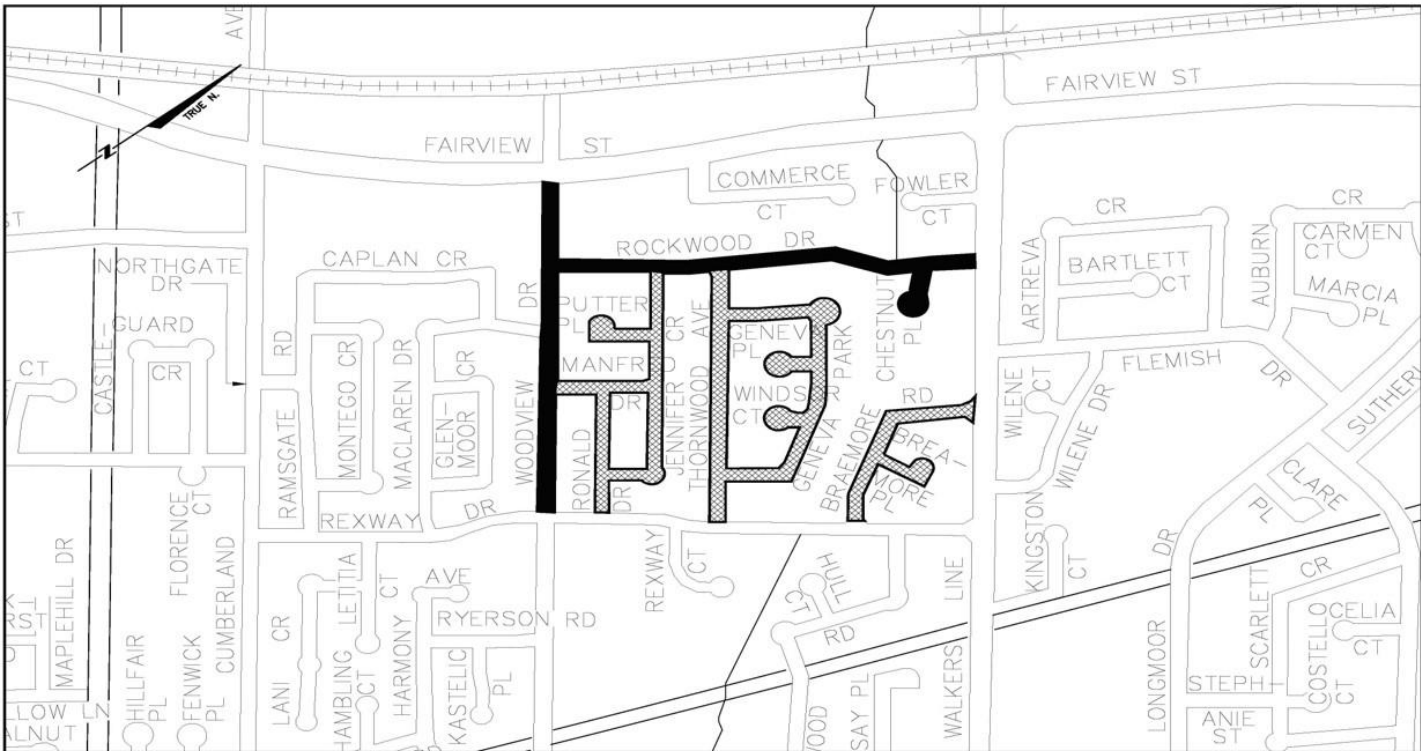

COVID-19 Information

The City of Burlington and Halton Region continue to take appropriate action to prioritize the health and well-being of our community and staff. Our goal is to keep the public and staff safe and help minimize the spread of the COVID-19 virus. For more information, visit [Burlington.ca/Coronavirus](https://www.burlington.ca/Coronavirus)

The City and Region work with our contractors to make sure this work is done in a safe and timely way. We follow municipal, provincial and federal orders, including the Canadian Construction Association COVID-19 Standardized Protocols for All Canadian Construction Sites.

This construction site will be managed by Four Seasons Site Development Ltd. Their Health and Safety Policies and Procedures will govern the job site. City of Burlington staff and all other consultants that visit the project site will follow the policies outlined by Four Seasons Site Development Ltd. for onsite Health and Safety.

Contacts

| Inquiry/Concern | Contact | Contact Number/Email |
|-----------------------------------|---|---|
| Day-to-day construction inquiries | Bart Barnes, Construction Inspector City of Burlington | 905-220-5493 Bart.Barnes@burlington.ca |
| Watermain inquires | Chandni Desai, Project Manager Halton Region | 905-825-6000, ext. 3235 Chandni.Desai@halton.ca |
| All other construction inquiries | Hasan Rabby, Contract Administrator City of Burlington | 905-335-7600, ext. 7507 Hasan.Rabby@burlington.ca |

Parking

During normal construction hours, Monday to Friday, 7 a.m. to 5:30 p.m., vehicle access to and from your property may be difficult. Driveways may be temporarily closed when work is being carried out in the immediate area. When your driveway is inaccessible or closed, please park on a neighbouring street, or where no construction is taking place. If your vehicle will be in contradiction to the below by-law, register your vehicle for the On-Street Parking Exemption Program at:

www.burlington.ca/exemption

How does a parking exemption work?

It allows a vehicle to park on the street beyond the 5-hour limit or overnight between 1 a.m. to 6 a.m., up to 15 days per calendar year, per license plate.

The only two parking offences waived AFTER a vehicle is registered for a parking exemption are:

1. park exceeding 5-hour limit
2. park between 1 a.m. to 6 a.m.

All other parking offences apply as they are not part of the parking exemption program.

If you have any questions about parking, please contact Parking Services at 905-335-7816.

Utility

Disruption to your home internet or telephone service may occur. This is a concern for those working and schooling from home, the City has flagged this concern with utility companies. Our goal is to have internet disconnections repaired by the provider within 24 hours. The Contractor will typically contact the utility company, however, if you lose service, please inform your utility provider and the City about the interruption.

Lawn Irrigation System

If you have a lawn irrigation system, we recommend that you disconnect and remove any sprinkler heads within the city's road allowance. The city inspector will notify you if your system is affected.

There are changes happening in your community

Tree Removals

Tree protection barriers will be erected around all trees within the right-of-way. Some trees will require removal or pruning.

Vibration

There may be times when you feel some minor vibrations from construction equipment. We recommend that you remove small, light objects from shelving around the house to prevent damage.

Dust and Mud

During construction, there will be increased levels of dust and mud throughout the project limits. The contractor is required to manage these impacts.

Garbage Pick up

Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage to a location that can be easily picked up by the garbage truck and return your garbage containers. To help the contractor return your bins to you, we ask that you write your house number on your garbage cans, recycling bins and green carts.

Road Closures/Lane Restrictions

Lane restrictions and short-term road closures will be in place during construction. You will still have access to your home. Additional information will be provided during construction.

Mail Delivery

Canada Post will provide mail delivery to a single-point pick-up location. More information will be provided by Canada Post.

Watermain Works

There will be interruptions to your water service during construction while completing watermain tie-ins and when transferring the houses to the new watermain. Halton Region will provide 48 hours advanced notice of all scheduled service interruptions.

Some watermain installation and tie-in work may be required to take place at night.

Driveway Restoration

Under the contract, asphalt/concrete driveways adjacent to new curb and sidewalk, or that contain water service shutoffs, will be restored from the limit of disturbance to the curb line at the roadway.

Option A

- The **City's Contractor restores the disturbed area** under the contract in full width from the limit of the disturbance to the curb line at the road.

There are changes happening in your community

- The work is carried out and is included under the contracted warranty period.

Option B

- A homeowner may **request to be credited monetarily in-lieu of the City restoring** the driveway.
- The City Contractor will remove all existing asphalt/concrete, grade to a 50mm depth, and leave in granular.
- The homeowner is reimbursed at the unit price as per the contract (approx. \$30 to \$40 per square metre) multiplied by the area of disturbance.
- The homeowner enters into a private contract with a Contractor of their choosing and has their driveway restored privately.
- This driveway is removed from the warranty period applied to the project. Special note must be taken with driveways that have a water shutoff within; the valve box must be protected during private driveway paving and remain accessible. Repairs for damage to the valve box will be borne to the homeowner.
- Compensation to the homeowners will be provided near the end of the project by direct deposit or certified cheque via regular mail.

If Option B is your preference, please contact Hasan Rabby at hasan.rabby@burlington.ca by **July 31, 2022**.
