## Rexway Drive Area Minor Reconstruction – Phase 2

Project Update – November 2022

[Burlington.ca/RexwayAreaPhase2](https://Burlington.ca/RexwayAreaPhase2)

### Project Location

### Leaf Collection

Thank-you for your efforts in collecting and bagging leaves on the streets under construction. With top asphalt placed prior to the scheduled pick-up on Woodview Dr., Rockwood Dr., and Chestnut Pl., and with the support of Fours Seasons Site Development, the leaves were able to be collected by the City. Our Contractor will assist with the collecting of leftover leaves on the remaining streets.

### Project Schedule

The project has experienced delays due to the completion of third-party locates, industry-wide concrete shortages, and other factors outside of our Contractor's control, like a notable increase in storm and wastewater main works. This has required the project completion date to be extended and a small portion of the project to be completed in Spring 2023. This includes final maintenance hole and catchbasin adjustments and placement of top asphalt on Thornwood Ave., Geneva Park Dr., Geneva Pl., Windsor Ct., Braemore Rd., and Braemore Pl. Final sod restoration will be completed this year and some driveways in the Braemore area are being paved in temporary asphalt this year, with permanent asphalt to be placed in the Spring.

All remaining works are scheduled to be completed in May 2023. The project has a 1-year maintenance period, with all minor deficiencies being documented and corrected by Fall 2023.

## **Snow Removal and Maintenance**

The City will continue snow removal and maintenance services throughout the project limits through the winter.

## **Project Updates and Current Information**

If you would like to receive notification via email when future Project Updates are available, please subscribe to the project webpage.

**Thank you for your co-operation throughout this project.**

Sincerely,

*Ryan Stoneman*
