Street improvements, watermain replacement, and wastewater main replacement on Wicklow Road and Belfast Avenue Project Update – April 2022 Burlington.ca/WickowBelfast

The City of Burlington and Region of Halton have awarded this project to Coco Paving.

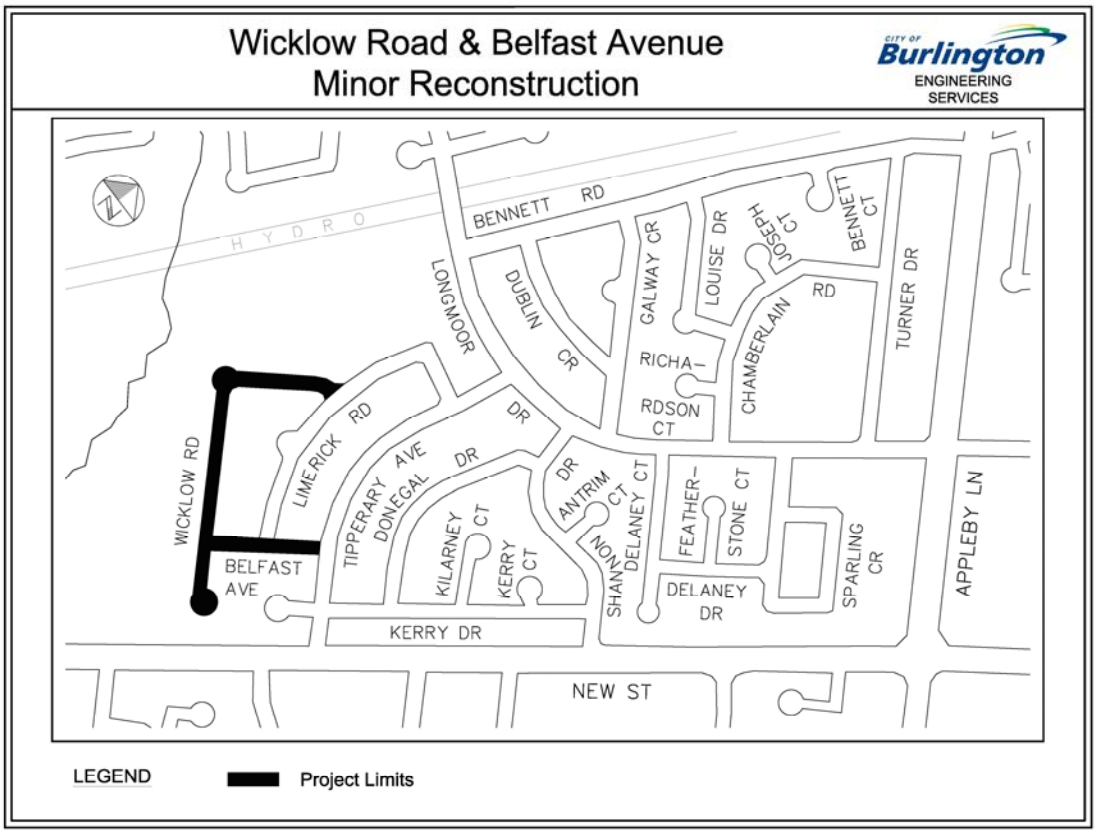

COVID-19 Information

The City of Burlington and Halton Region continue to take appropriate action to prioritize the health and well-being of our community and staff. Our goal is to keep the public and staff safe and help minimize the spread of the COVID-19 virus. For more information, visit Burlington.ca/Coronavirus

The City and the Region work with our contractors to make sure this work is done in a safe and timely way. We follow municipal, provincial and federal orders, including the Canadian Construction Association COVID-19 Standardized Protocols for All Canadian Construction Sites – Version 7, dated April 19, 2021.

This construction site will be managed by Coco Paving. Their Health and Safety Policies and Procedures will govern the job site.

Project Location

Utilities

Disruption to your home internet or telephone service may occur. This is a concern for those working and schooling from home, the City has flagged this concern with utility companies. Our goal is to have internet disconnections repaired by the provider within 24 hours. The Contractor will typically contact the utility company, however, if you lose service, please inform your utility provider and the City of the interruption.

Accessing your Property

During normal construction hours, Monday to Friday, 7 a.m. to 5:30 p.m., vehicle access to and from your property may be difficult. Driveways will be temporarily closed when work is being carried out in the immediate area. You will be notified in advance, by either the City Inspector or the Contractor.

Parking

During normal construction hours, Monday to Friday, 7 a.m. to 5:30 p.m., vehicle access to and from your property may be difficult. Driveways may be temporarily closed when work is being carried out in the immediate area. When your driveway is inaccessible or closed, please park on a neighbouring street, or where no construction is taking place. If your vehicle will be in contradiction to the below by-law, register your vehicle for the On-Street Parking Exemption Program at:

www.burlington.ca/exemption

How does a parking exemption work?

It allows a vehicle to park on the street beyond the 5-hour limit or overnight between 1 a.m. to 6 a.m., up to 15 days per calendar year, per license plate.

The only two parking offences waived AFTER a vehicle is registered for a parking exemption are:

1. park exceeding 5-hour limit
2. park between 1 a.m. to 6 a.m.

All other parking offences apply as they are not part of the parking exemption program.

If you have any questions about parking, please contact Parking Services at 905-335-7816.

Your front lawn and driveway

As part of this project, the curb and some area of sidewalk will be replaced. Some re-grading of your boulevard lawn near the road will be needed. Any damage to your lawn, walkways and driveways will be restored.

For information regarding driveway credits, please visit the project website.

Lawn Irrigation System

If you have a lawn irrigation system within the City's road allowance, please disconnect and remove these sprinkler heads. Please flag all other irrigation heads so they are not damaged. The City is not responsible for damaged heads within the road allowance.

Tree Removals

Tree protection barriers will be erected around all trees within the right-of-way. Some trees will require removal or pruning.

Vibration

You may experience some minor vibration from construction equipment. As a precaution, we recommend that you remove or secure objects on shelves and walls.

WHS has been contracted by Coco Paving on behalf of the City/Region to complete pre and post condition surveys of residences within the construction limits. This is a free and optional service.

Dust and Mud

During construction, there will be increased levels of dust and mud throughout the project limits. The contractor is required to manage these impacts.

Garbage Pick up

Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage to a location that can be easily picked up by the garbage truck and return your garbage containers. To help the contractor return your bins to you, we ask that you write your house number on your garbage cans, recycling bins and green carts.

Road Closures/Lane Restrictions

Lane restrictions and short-term road closures will be in place during construction. You will still have access to your home. Additional information will be provided during construction.

Mail Delivery

Canada Post will provide mail delivery to a single-point pick-up location. More information will be provided by Canada Post.

Watermain Works

There will be interruptions to your water service during construction while completing watermain tie-ins and when transferring the houses to the new watermain. Halton Region will provide 48 hours advanced notice of all scheduled service interruptions.

Some watermain installation and tie-in work may be required to take place at night.
