NOTICE OF STUDY COMPLETION

Municipal Class Environmental Assessment Falcon Creek Erosion Control CN Railroad to Willowbrook Road

The City of Burlington has completed a Schedule 'B' Class Environmental Assessment for Falcon Creek between the CN Railroad and Willowbrook Road to facilitate erosion control improvements. The project was completed to select a preferred plan to rehabilitate a highly eroded 275 m reach of Falcon Creek as identified in the key plan below. The study was conducted in accordance with the requirements of the Municipal Engineers Association (MEA), Municipal Class Environmental Assessment for Municipal Projects.

The recommended solution at identified erosion sites consists of erosion monitoring, naturalization, minor safety improvements, stormsewer inlet improvements, and plantings to stabilize the creek banks and prevent erosion.

A Project File Report documenting the study process, the recommended design alternative solutions, and the design concepts have been prepared and are available for a 30-calendar day review period for the public beginning on Monday, Sept. 30, 2024. Subject to comments received following this Notice and the receipt of approvals, the City intends to proceed with construction of the recommended project, as outlined in the Project File Report. The Project File Report is available for review on the City's project website www.burlington.ca/falconcreek.

Anyone with questions, concerns or comments can give written comments to the contacts listed below. Comments must be received no later than Wednesday, Oct. 30, 2024.

Mr. Arif Shahzad, M.Eng., P.Eng.
Senior Project Manager

Section 16 Order Request

In addition to general project comments as outlined above, a request to the Minister of the Environment, Conservation and Parks for an order imposing additional conditions or requiring a comprehensive environmental assessment may be made on the grounds that the requested order may prevent, mitigate, or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights.

Requests shall be made within the 30-day comment period and should include the full name and contact information of the requester for the ministry. Requests should specify what kind of order is being requested (additional conditions or a comprehensive environmental assessment), explain how an order may prevent, mitigate, or remedy potential adverse impacts, and can include supporting information. The request should be sent by 4:30 p.m. Wednesday, Oct. 30, 2014, to:

Ministry of the Environment,
Conservation and Parks
777 Bay St., 5th Floor
Toronto, ON M7A 2J3
Email: minister.mecp@ontario.ca

Director, Environmental Assessment Branch
Ministry of the Environment, Conservation and Parks
135 St. Clair Ave. W., 1st Floor
Toronto, ON M4V 1P5
Email: EABDirector@ontario.ca

Requests should also be sent to the City of Burlington. Please visit the Ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at: ontario.ca/page/class-environmental-assessments-section-16-order.

All personal information included in your request, such as name, address, telephone number and property location, is collected under the authority of Section 30 of the Environmental Assessment Act and is collected and maintained for the purpose of creating a record that is available to the general public. As this information is collected for the purpose of a public record, the protection of personal information provided in the Freedom of Information and Protection of Privacy Act (FIPPA) does not apply (s.37). Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. Project and Notice information will be made accessible upon request in accordance with the Accessibility Standard for Information and Communication under the Accessibility for Ontarians with Disabilities Act, 2005.

If there is no request received at the end of the review period, the City may proceed to the detailed design and construction phases as outlined in the Project File Report.

This Notice is published on Sept. 27, 2024.
