Street Improvements and Streetlight Upgrades in the Coldstream Drive Area

Project Update 2 – April 2020

[Burlington.ca/Coldstream](https://www.burlington.ca/Coldstream)

The City of Burlington awarded this project to King Paving & Construction Ltd.

COVID-19 Information

The Government of Ontario has declared this construction essential:

Construction projects and services that are required to ensure safe and reliable operations of, or to provide new capacity in, critical provincial infrastructure, including transit and transportation sectors beyond day-to-day maintenance.

<https://www.ontario.ca/page/list-essential-workplaces>

The City of Burlington is concerned for the Health and Safety of all workers and all others that either live in or must enter the construction site.

The City of Burlington and Halton Region are working with our contractors to make sure this work is done in a safe and timely way. We follow the direction of the Federal and Provincial Governments and more specifically the Canadian Construction Association direction COVID-19 Standardized Protocols for All Canadian Construction Sites – Version 1, dated March 26, 2020.

This construction site is managed by King Paving & Construction Ltd. It is the contractor's Health and Safety Policies and Procedures that will govern the job site. City of Burlington staff, Halton Region staff and all other consultants that visit the project site will follow the policies outlined by King Paving & Construction Ltd. for onsite Health and Safety.

Disruption to your home internet or telephone service may occur. We realize that there is a heightened concern with respect to families who are working from home. The City has raised this concern with utility companies and their need to react quickly to disabled services. Our goal is to have affected internet connections repaired by the utility companies within 24hrs of an issue occurring. The contractor typically contacts the utility company, however if you lose service, please feel free to contact us.

Project Location

Access to Your Property

During normal construction hours, Monday to Friday, 7 a.m. to 7 p.m., vehicle access to and from your property may be difficult. Driveways will be temporarily closed when work is being carried out in the immediate area. You will be notified in advance, by either the City Inspector or the Contractor.

Parking

When you cannot access your driveway, please park on neighbouring streets where no construction is taking place. Due to COVID-19, residents do not need to register for a parking exemption to park on the street.

There are changes happening in your community

Your Front Lawn and Driveway

As part of this project, some curb and sidewalk will be replaced. Some re-grading of your boulevard lawn near the roadway will be required. All disturbances to your lawn, walkways and driveways will be restored.

Lawn Irrigation System

If you have a lawn irrigation system within the City's road allowance, please disconnect and remove any sprinkler heads within the City's road allowance. Please flag all other irrigation heads, so they are not damaged. The City is not responsible for damaged heads within the road allowance.

Tree Removals

To accommodate this project, tree removals may be required. Some pruning of hazardous trees and limbs may also be required.

Vibration

You may experience some minor vibration from construction equipment. As a precaution, we recommend that you remove or secure objects on shelves and walls.

Dust and Mud

There will be increased levels of dust and mud near the work site. The contractor is required to manage these impacts.

Garbage Pick up

Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage to a location that can be accessed by the garbage truck and return your garbage containers. In order to help the contractor, please put your house number on your garbage cans and recycle bins.

Temporary Road Closures

All streets will experience temporary lane restrictions.

Mail Delivery

There is a chance mail delivery may be affected by the construction project. Canada Post has been notified of this project.
