Re: 5219 Upper Middle Road - Burlington
Noise Impact Assessment

Rb File #: 2553

ATTN: Selva Chelliah
Bloomfield Homes
77 Cedar Ridge Road
Stouffville, ON L4A 2H6

1.0 INTRODUCTION

This letter confirms that our previous report dated March 14, 2018 and memorandum dated April 16, 2018 are still valid and unchanged based on the current site plan of the development. In effect, this is a reliance letter for those reports. As previously stated, an updated Noise Study will need to be done once the final design of the site has been approved. In addition, prior to the issuance of Occupancy Permit, either a Professional Engineer qualified to perform acoustical engineering services in Ontario should certify that the noise control measures have been properly installed and constructed as per the approved report.
