Sustainable Building Checklist for ZBA	
Guideline	Implementation in project
Site Connections: Provide pedestrian and cycling connections from on-site buildings to off-site public sidewalks, pedestrian paths, trails, open space, active transportation pathways, transit stops and adjacent buildings and sites in accordance with Official Plan policies.	Please refer to the Transportation Impact Statement which outlines the walkability, and cycleability of the site. The proposed building is located within the Burlington Transit Network and is within close vacinity to multiple transit routes such as the Burlington Bus Terminal.
Accessibility: Design on-site sidewalks, crosswalks and walkways to be continuous, universally accessible, barrier-free and clearly delineated in accordance with Official Plan Policies, Accessibility for Ontarians with Disabilities Act & City of Burlington Accessibility Design Standards.	The public realm is designed to be accessible based on the AODA standards of compliance. The project is also meeting accessibility requirements for parking. Please refer to the architectural set along with the Planning and Urban Design Rationale to get further information on accessibility features.
Bicycle Storage: Provide bicycle parking spaces in accordance with the Zoning By-law and Official Plan Policies.	Please refer to the Architectural Set that was submitted along with the Transportation Impact Statement which outline bicycle parking storage throughout the site.
Stormwater Quality: Achievement of a level one/enhanced stormwater treatment for all stormwater runoff.	Refer to the Functional Servicing and Stormwater Management Report which outlines how stormwater will be treated on the site.
Urban Heat Island: Provide vegetated landscape areas in hard surface areas as per the Zoning By-law.	Refer to the Landscape Set which outlines the vegetation and greenery that are added to the amenity levels and ground floor
Waste Management Plan: Provide and implement a waste management plan in accordance with Regional requirements.	Waste Management Plan has been attached to the submissionn and outlines all requirements
