To Mr. Huycke,

In support of the residential redevelopment occurring at 92 Plains Road East, in Burlington, Rubidium Environmental (Rubidium) has conducted comprehensive environmental investigations to meet the requirements of *Ontario Regulation 153/04 – Record of Site Condition* (O. Reg. 153/04). The investigations included Phase One and Two ESAs followed by the subsequent filing of a Record of Site Condition (RSC) with the Ministry of Environment, Conservation, and Parks (MECP).

This letter is submitted to confirm that the conclusions of the Phase Two ESA report still holds true, as the report is considered to be out of date (as per O. Reg. 153/04).

Should you have any questions concerning the above please do not hesitate to contact us directly.

Yours truly,
