Re: New Development - 2095 Prospect St., Burlington

To Whom It May Concern,

After reviewing the drawings related to 2095 Prospect Street in Burlington, Ontario, it would be our recommendation to move forward as described with the following alteration:

15 x 35gal organics recycling carts
Or
5 x 35gal organics recycling carts (with increased service)

Due to the nature of organic material, it's become Waste Management's standard operating procedure to utilize 35gal organics carts when assisting customers with their organics diversion programs. I can confirm that, with the above considered, the solid waste requirements for this site would be achievable based on Waste Management's current available fleet and service capabilities.

Regards,

Caleb Denyes
