6.0 ZONING DESIGNATION

***This Section MUST be completed when applying for Zoning By-law Amendment**

6.1 What is the existing Zoning designation on the subject lands? Mixed Use Corridor (MXG)

6.2 What is the proposed Zoning designation on the subject lands? Mixed Use Corridor (MXG) with site specific provisions

6.3 What land uses will be permitted in the proposed designation? There will be no amendment regarding usage.

6.4 What is the reason for the proposed rezoning? To increase maximum height, density, and other site-specific standards

6.5 What is the minimum and maximum density requirement in the existing zoning?

Max. Density: 1.5 Min. Density: .5

6.6 What is the minimum and maximum height requirement in the existing zoning?

Max. Height: 6 Min. Height: 2

6.7 Is the subject land within an area where zoning with conditions applies? Is so, explain how the application conforms to the Official Plan policies relating to zoning with conditions.

The subject lands lands are zoned Mixed-Use Corridor – General with a Holding Provision (H-MXG). The subject lands are subject to a Holding ("H") Provision. The holding symbol restricts development until the City is satisfied that required conditions have been addressed, including servicing capacity, transportation considerations, and any required technical studies. The holding provision is intended to be removed as part of the approval of the proposed by-law amendment as it is expected that the matters of servicing, transportation, and technical studies will have been addressed through the processing of the zoning application.

The proposed development is permitted in principle within the MXG zone. However, relief is required with respect to certain performance standards, including building height, and floor area ratio. A Zoning By-law Amendment is therefore required to facilitate the proposed development. Below is a summary table of compliance with the MXG zone standards:

6.8 Include with your application a concept plan showing, in metric units:

a) The boundaries and dimensions of the subject land;

b) The location, size and type of all existing and proposed buildings and structures on the subject land, indicating their distance from the front lot line, rear lot line and side lot lines;

c) The approximate location of all natural and artificial features (for example, buildings, railways, roads, watercourses, drainage ditches, banks of creeks, wetlands, wooded areas, wells and septic tanks) that are located on the subject land or on land that is adjacent to it, and in the applicant's opinion may affect the application;

d) The current uses of land that is adjacent to the subject land;

e) The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public travelled road, a private road or a right of way; and

f) The location of any easements affecting the subject land.
