Attn: Tasha Mazza
RE: 2300 Queensway Drive, Burlington

Bell Canada currently has installed underground cable(s) adjacent to the above property, which property is scheduled to be approved for a Draft Plan of Subdivision with servicing coming from and along Queensway Dr.

As a condition of approval the City has requested that Bell Canada provide written confirmation that it is agreeable to re-positioning its infrastructure, if necessary, to accommodate the installation of the storm sewer connection to the property at the property owner's cost and expense.

This letter is to advise the City of Burlington that Bell Canada is agreeable to such arrangement.

Yours truly,

Amanda McQuay
