

Walkers Line Rehabilitation
North Service Road to South of Dundas Street

Project Update – June 2026

Burlington.ca/WalkersRenewal

Pave-Al Ltd. has been awarded the Walkers Line Rehabilitation project.

Project Location

Project Scope

- Asphalt resurfacing (50 mm to full depth)
- Localized curb replacement
- Sidewalk/multi-use pathway replacement with cycle track/sidewalk installation north of Mainway.
- Localized storm repairs
- Street Lighting renewal
- Traffic signal renewal
- Noise Wall Replacement
- Fire hydrant relocations

Project Schedule

Stage 1 – Walkers Line – North Service Road to Upper Middle Road – The contractor will mobilize the week of June 15, 2026, with construction taking place until December 2026. The construction will start at the North Service Road and proceed north.

Stage 2 – Walkers Line – Upper Middle Road to Berton Avenue – Spring to Fall of 2027.

Night Work

The final milling and paving works for Stage 1 is to take place during the night, due to the high volume of vehicles on the road. This work will take approximately 3 weeks and be completed in the fall of 2026.

Contacts

Inquiry	Contact
Day-to-day construction	**Chris Sferrazza**, Construction Inspector City of Burlington, 289-983-6304 Christopher.Sferrazza@burlington.ca
All other construction inquiries	**Jason Enlund**, Contract Administrator City of Burlington, 289-208-2606 Jason.Enlund@Burlington.ca
All other construction inquiries	**Jeff Thompson**, Contract Administrator City of Burlington, 905-335-7600, ext. 7669 Jeff.Thompson@Burlington.ca

Utilities

Utilities, such as Union Gas, Hydro and Bell Canada, will be locating their existing infrastructure to prepare for this construction. Residents and business owners will see various coloured paint marks and flags on their lawn and roadway. These are noting the location of various underground utilities, i.e. gas (yellow), hydro (red) water (blue), etc. Please do not remove these marker stakes or paint markings. Staff will return to remove them once the project is complete.

Access to Your Home or Business

During normal construction hours (Monday to Friday, 7 a.m. to 5:30 p.m.) vehicle access to and from your properties may be interrupted. Driveways will be temporarily closed when work is being carried out in the immediate area. Either the Inspector or the Contractor will notify you of access interruptions before the closure.

Through staging of the work, every effort is required to be made to ensure access is maintained to multi-unit parking lots and facilities. Access interruptions are not expected.

Driveway Impacts
During replacement of existing curb and sidewalk/cycle track, portions of existing driveways will require replacement. These driveways will be replaced full width, to the limit of disturbance.

Road Closures/Lane Restrictions
Lane restrictions will be in place during construction. Additional information will be provided during construction, as necessary.

Full road closures are not planned on this project although some turning movements may be temporarily affected.

Garbage Pick up
Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage and recycling to a location that can be accessed by the garbage truck and return your garbage/recycling containers if required. To help the contractor, we ask that you mark your house number on your bins.

Lawn Irrigation System
If you have a lawn irrigation system where curb and sidewalk are to be replaced or installed, we request that you flag all irrigation heads, to help avoid damage. The City is not responsible for damaged heads within the road allowance. This does not have to be done until work in your area is scheduled.

Vibration
You may at times experience minor vibration from construction equipment. We recommend that you remove small, light objects from shelving around the house.

Trees
Tree protection barriers will be erected around all trees in the right-of-way and in front of adjacent private trees within the construction limits, with an opening to allow homeowner access to maintain the area within.

Noise Wall
For the residents who will have the noise wall replaced, an additional notice will be provided with additional information.

Canada Post
Due to access concerns regarding door-to-door mail delivery, temporary single-point mail pick-up location(s) may be coordinated by Canada Post.

Project Updates and Current Information
If you would like to receive notification via email when future Project Updates are available, please subscribe to the project webpage **www.Burlington.ca/WalkersRenewal**

We would like to thank you for your co-operation and understanding during this construction period.

Kind Regards,

Jeff Thompson
