NOTICE OF STUDY COMMENCEMENT

Municipal Class Environmental Assessment
Falcon Creek Erosion Control Project

The Study

The City of Burlington, through their consultant Valdor Engineering Inc., is undertaking a Municipal Class Environmental Assessment to address erosion concerns in the section of Falcon Creek, between the CN Railroad and Dorset Avenue in the City of Burlington. The map shows the location of the study area.

The Process

The Study will be carried out under *Schedule "B"* in accordance with the requirements of the Municipal Engineers Association (MEA), *Municipal Class Environmental Assessment for Municipal Projects.* The study process includes public and stakeholder consultation and identification of measures to mitigate adverse impacts.

Public Interaction

The Project Team invites public input and comments and will incorporate them into the planning and design of this project. A Public Information Centre (PIC) will be held as part of the process to provide an opportunity for the public to review and comment on the study findings. Notice of the PIC will be provided to the public and agencies as the study progresses.

Comments

The City wishes to ensure that anyone with an interest in this study has the opportunity to provide input on the study alternatives. Except for personal information, all comments will become part of the public record. To provide your comments, request additional information concerning this project or to join the study mailing list, please contact either of the Project Team members:
