1.0 Detailed Site Location Information

1.1 Previously Registered Sites (1970s Assessment)

Four Indigenous sites were previously registered within the limits of the study area during the Bronte Creek Provincial Park Survey in the 1970s. Due to the lack of available mapping or other documentation from the original survey, the location coordinates for the sites provided in Table 1 below reflect the coordinates on record in the Ontario Archaeological Sites Database prior to the initiation of the current Stage 1 and 2 Archaeological Assessment of Bronte Creek Meadows. The site records in the Ontario Archaeological Sites Database do not indicate the original method of recording or associated degree of error, nor is the elevation of the sites provided. The current site coordinates were converted from the original latitude and longitude to modern Universal Transverse Mercator Grid Zone 17N using North American Datum 1983 by the Ministry of Citizenship and Multiculturalism at an unknown date; the site records indicate some coordinates may have been recalculated on more than one occasion. Due to the above factors, the level of accuracy for the coordinates provided in Table 1 cannot be verified.

Table 1: Location Coordinates — Previously Registered Sites

Site	Coordinates (Northing, Easting)
AiGw-24 (Upper Middle Road)	4806522, 599012
AiGw-51 (J. Chisolm)	4805592, 599382
AiGw-52 (Wheeler)	4805722, 599412
AiGw-76 (Richardson)	4805922, 599512

Note the coordinates for the previously registered location of AiGw-24 are provided for references purposes only. This site was relocated during the course

of the current Stage 1 and 2 assessment and the updated location information, including site coordinates with high-level accuracy, is provided in Section 1.2, Table 3 below.

1.2 Sites and Findspots (2023-2025 Assessment)

Universal Transverse Mercator Grid Zone: 17N

Datum: World Geodetic System 1984

Method of Correction: n/a

Global Positioning System readings were recorded with a Trimble Catalyst Global Navigation Satellite System receiver with sub-metre accuracy using World Geodetic System 1984. At the time of recording Global Positioning System coordinates, the conditions were optimal.

Findspots

Table 2: Location Coordinates — Findspots

Findspot	Coordinates (Northing, Easting)	Elevation (above sea level)
P1	4805509, 598426	142 metres
P3	4805355, 599063	137 metres
P4	4805786, 599474	132 metres
P6	4805537, 598709	135 metres
P7	4805605, 598651	136 metres
P9	4805574, 598628	135 metres

Findspot	Coordinates (Northing, Easting)	Elevation (above sea level)
